Get4-Flox

Nomenclature	C57BL/6Smoc-*Get4*^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Model Description

These mice carry loxP sites flanking target exons of Get4 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Get4 gene.
*Literature published using this strain should indicate: Get4-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
